

Sports Premium Report – 2018/19

Introduction and Philosophy

At Grange Farm we value maintaining a broad and balanced curriculum that enables all children to thrive.

Physical and emotional well-being play a key part in children making good or better progress in all ways in school and we want all children to leave Year 6 instilled with an enjoyment of an active, healthy lifestyle that will last a life-time and an understanding of the benefits that this will have on their life experiences.

We want to ensure that all children have access to at least their entitlement of Physical Education in the week but that all also have (and take up) the opportunity to extend this experience in extra-curricular pursuits that give them experience of a broad range of sports and activities.

The Previous Academic Year – September 2017 to July 2018

How much funding did the school receive?

£14429

How was this funding spent?

Strategy	Cost	Targeted pupils	Impact
Provision of formal clubs (lunch-time and after-school)	£8000	All but with targeted focuses based on participation data collated from 2016/17	The proportion of pupils engaging in clubs has increased from 2016/17
Provision of coaches to run informal lunchtime activity (targeted to specific year groups)	£5500	All but with targeted focuses based on participation data collated from 2016/17	The proportion of pupils engaging in lunchtime activity has increased from 2016/17
Contribution to Schools Games	£250	Year 2 and up for inter-school competition	Participation in inter-school competition was maintained at high levels (a greater proportion of children qualified for higher level competition)

Training Sports Leaders to run informal activities at lunch-times	£1000	Year 5 trained as Sports Leaders. Targetting groups across school for activity (more focus on younger pupils).	Lunchtime Sports Leader led activities remain very popular with younger children in school.
Total Cost:	£14750		

Taking into account the impact column in the table above, how effective was the overall allocation of the Sports Premium? What has been learnt for future use of the funding?

As well as an improvement in the effectiveness and consistency of curriculum provision, an increased number of children took part in extra-curricular activities throughout the year and much of this can be attributed to the way these activities are supported and funded through Sports Premium.

Feedback from parents, teachers and pupils indicates that we have the following areas for development in 2018/19:

- Continuing to target increased opportunities for younger pupils
- Increase opportunity for dance (particularly during curriculum time)

Monitoring and evaluation of PE throughout the year also indicates that greater consistency in sports coaches delivering PE across school would support greater clarity and effectiveness in progression.

The Current Academic Year – September 2018 to July 2019

How much funding will the school receive?

£19180

What is the planned strategy for spending this funding?

Strategy	Cost	Targeted pupils	Intended Impact
Contribution to salary of school-employed sports coach (40% to reflect time spent on clubs)	£8800	Year 1 to Year 6	Increasing range of and consistency within clubs and inter-school competition. Also to make stronger link to curriculum (even though this element of sports coach wage is being funded by delegated budget)

Provision of additional formal clubs (lunch-time and after-school)	Estimated £4500	All but with targeted focuses based on participation data collated from 2016/17	Increasing time children spent on activity during the school week
Provision of additional coaches to run informal lunchtime activity (targeted to specific year groups)	Estimated £2750	All but with targeted focuses based on participation data collated from 2016/17	Increasing time children spent on activity during the school week
Contribution to Schools Games	Estimated £250	Year 2 and up for inter-school competition	Maintaining and increasing participation in inter-school competition
Training Sports Leaders to run informal activities at lunch-times	Within Sports Coach cost above	Year 5 trained as leaders. Continuing focus on younger and less-active pupils across school	Increasing time children spent on activity during the school week
Renewing playground markings	Estimated £3000	All	Providing alternative opportunities for informal game-playing at break times and also enabling easier use of space in formal sessions.
Total Cost:	£19300		

How will the success of this year's allocation be measured?

- Pupil Interviews on children's attitudes to sport and healthy lifestyles (conducted by governors)
- Measuring proportions of the school population taking part in extra-curricular activities
- Parent survey on attitudes, participation in activity and lifestyle choices
- Monitoring and evaluation of the effectiveness of teaching and learning in P.E.

How will we make sure that the intended improvements are sustainable?

- Where funding is spent on external coaches to provide additional extra-curricular activities, the focus is on providing either access to sports that the children may not otherwise access (e.g. Tag Rugby, Basketball) or to specifically teach skills to develop children's understanding of healthy lifestyles (e.g. Year 6 Sports Leaders)
- Funding is used in conjunction with projects in other schools to establish self-sustaining networks

- Involving children in making decisions about the use of some of the Sports Premium to ensure pupil engagement
- Where funding has been used successfully to increase quality and/or participation in sports and healthy lifestyle activity, where possible we transfer the funding for future years to the main delegated budget (rather than funding through Sports Premium) in order to safeguard effective practice rather than relying on the continuation of the Sports Premium
